## Overview

Using proven crypto and blockchain technology honed over a decade, Ripple's enterprise-grade solutions are faster, more transparent, and more cost-effective than traditional financial services. Our customers use these solutions to source crypto, facilitate instant payments, empower their treasury, engage new audiences, lower capital requirements, and drive new revenue. Founded in 2012, Ripple's vision is to enable a world where value moves as seamlessly as information flows today—an Internet of Value. Ripple is the only enterprise blockchain company today with products in commercial use. Ripple's global payments network includes over 300 customers across 40+ countries and six continents.
